

Brian Houser lives in Bloomsburg with his wonderful wife Michelle and their daughter Eleanor. Brian is a Reliability Supervisor at PPL Electric Utilities and has over 20 years' experience in the utility sector, having spent time in Generation, Transmission and Distribution. Brian is a non-traditional college graduate, earning two degrees from Bismarck State College while working full-time. Outside of work, Brian is an avid motorcycle enthusiast and enjoys long distance motorcycle riding. Fun fact about Brian, he once rode his motorcycle 1000 miles in under 24 hours.

Growing up in Bloomsburg, Brian recognizes how important an institution like the Children's Museum is for our town, which is what led him to join the board in 2021. He is excited and privileged to help the museum offer a fun and engaging learning experience for the children of Bloomsburg.
