### Shoebox Archeology

Carry out your own mini excavation and discover the past! Dig up fossils, artifacts from past civilizations, and learn how to interpret your findings.  
1 hour class.  
Min of 6 students. Max of 20.  
\$15 per student.

### 3D Printing

Learn how 3D printers work. Use a 3D modelling program to create your own 3D printed object you can take home with you. 1.5 hour class.  
Min of 6 students. Max of 20.  
\$15 per student.

### Simple Circuits

Art meets science in this program. Students will paint their own canvases and then learn how to lay a circuit out and make it light up.  
1 hour class.  
Min of 6 students. Max of 20.  
\$15 per student.

## Scout Programs

Individual classes for  
your group

# We Offer 7 Different Scout Programs!

## Lego WeDo Robotics and Programming

Everyone loves Legos but this class takes master builders to the next level! Students will build mechanical creations and then use a scratch-based program to make them move and interact with their environment.

Recommended for ages 6-11.

3 hour class.

Min of 4 students. Max of 8.

\$20 per student.

## Soldering Boot Camp

Take your skills to the next level! Safety, solder types, desoldering, soldering tip types, tinning, and much more will be covered in this program. You will create your own motorized jitterbug you take home with you.

1.5 hour class.

Min of 2 students. Max of 6.

\$20 per student.

## Kitchen Chemistry

It's not just cooking, it's SCIENCE! This program has scouts experimenting with cupcake recipes and determining what each ingredient does.

1.5 hour class.

Min of 6 students. Max of 20.

\$20 per student.

LEARNING  
IS  
FUN!

## Forensic Science

Someone dumped a load of garbage into the Susquehanna River and you are the detective who can figure it out! Students analyze soil samples, fingerprints, fiber samples, mysterious substances, and investigate the crime scene to catch the culprit.

1 hour class.

Min of 6 students. Max of 20.

\$15 per student.
